

BAMBINO bougs

Beesnees(b) Released 2006
Landscape, Courtyard Pots and Baskets
Height in garden 1.2m

Beesnees(b) is a distinctive Bambino. It is a vigorous variety with strong yellow stems holding the leaves and flowers aloft, flowers are pure white.

USES:

Beesnees(b) makes an ideal plant for large containers and for use in garden hedges. With little training it will spill over making a full plant for you. In containers keep moist at all times. If planted to spill over walls or banks the plant will need tip pruning to get the basic shape right to follow the shape of the bank.

ZONES:-

In Gardens

In gardens
and pots

For the Homeowner

- Extremely free flowering
- Blooms for most months of the year
- * Good foliage and bloom contrast

Planting

Plant in courtyards, patio pots, baskets, garden beds and window boxes.

Placement

Plant in brighter, full sun areas.

Temperature

Heat and drought tolerant to 38°C once established

Grows well in cool areas

Light frost tolerant

Watering

Keep on the dry side to encourage heavier flowering.

Fertiliser

Use slow release fertilizers with an even balance of NPK, they are heavy feeders.

Pruning

Trim as desired during the cooler months of the year. Remove any shoots with green stems as they appear.

For the Grower

Planting

Timing : Spring - Summer - Autumn

Plants per pot: One only

Finish time: 10-12 weeks from potting

Soil: A general shrub mix

pH: Neutral to slightly acid

Light Levels: High, even full sun.

Temperature A growing house with good ventilation and held above 10°C.

Water Requirements Average, avoid wilting.

Fertiliser - either 1 or 2

1. Constant feed: Every two weeks with a general liquid fertiliser.

2. Slow Release: Slow release fertiliser with an NPK ratio in even balance and with trace elements added.

Pinching: Pinch tubes prior to potting. Tip prune to shape the plant as needed.

Growth Regulators: Not needed.

Pest Control: Control aphids. In cool weather if the leaves are wet leaf spot can develop.
