

# BAMBINI bougs

**Kikori** (D) Released Spring 2002  
Landscape, Courtyard Pots and Baskets. Height in garden up to 50cm

**Kikori** (D) likes warmer areas. It grows to 50-60cm in height with a spread of around 1m making a truly dwarf form. Leaves are highly variegated with yellow splashes.

**Kikori** (D) likes to grow in full sun for best flowering. As it flowers in warmer weather planting in full sun is best. It is a tidy grower doing well as a border plant. Tip pruning from time to time is needed.

## USES:

As a truly dwarf form it has a real place in gardens of today either as a garden plant, in large containers or as a window box planting.

## ZONES:-

In Gardens

In gardens and pots

## For the Homeowner

- Extremely free flowering
- Blooms right through until cooler months
- Versatile

### Planting

Plant in courtyards, patio pots, baskets, garden beds or window boxes.

### Placement

Place in bright, full-sun areas where a low effect is needed.

### Temperature

Grows well in warmer areas  
Heat tolerant to 90-95°C  
Frost tolerant to 20°C

### Watering

Keep on the dry side to encourage heavier flowering.

### Fertiliser

Use slow release fertilisers with an even balance of NPK, they are heavy feeders.

### Pruning

Trim as desired, but it is not necessary to maintain flowering.

## For the Grower

### Planting

**Timing :** Spring - Summer - Autumn.

**Plants per pot:** One only

**Finish time:** 10-12 weeks from potting

**Soil:** A general shrub mix

**pH:** Neutral to slightly acid

**Light Levels:** High, even full sun.

**Temperature** A growing house with good ventilation and held above 10°C.

**Water Requirements** Average, avoid wilting.

### Fertiliser - either 1 or 2

**1. Constant feed:** Every two weeks with a general liquid fertiliser.

**2. Slow Release:** Slow release fertiliser with an NPK ratio in even balance and with trace elements added.

**Pinching:** Pinch tubes prior to potting. Tip prune to shape the plant as needed.

**Growth Regulators:** Not needed.

**Pest Control:** Control aphids. In cool weather if the leaves are wet leaf spot can develop.
